Welcome!

On track for the picturesque

## Indulgence in the panorama carriages

During its 84-kilometre run, the Himmelstreppe train has to overcome more than 600 metres height difference from start to finish. It takes its passengers through pitch-black tunnels and over vertiginous bridges and viaducts.

The Himmelstreppe train with its state-of-the-art low floor units of the Mariazellerbahn might be among the most successful ways that technology and nature have been brought together in Austria.

The first-class panorama carriages are the highlight of the train. Doubtless among the things that all our passengers will never forget are the views of what is probably the most attractive side of the 1893-metre Ötscher peak and of the Zinken, a ravine that plunges down vertically to a depth of 100 metres with its unique rock formations.

While you soak in all these spectacular sights on your trip through the 'Dirndl Valley' and the foothills of the Ötscher region, you will also be able to enjoy at the same time genuine culinary delights and treats in the comfort of our panorama carriages.

## The romantic 'Dirndl Valley'

The appeal of the Pielach Valley is primarily attributable to its rich diversity. Here you'll encounter imposing mountain peaks, picture-perfect forests and extensive valleys.

That which can be said to symbolise the diversity of the region is the 'Dirndl' - in this case the local name for the cornelian cherry. These cherry-like wild-growing fruits have been cultivated by farmers for centuries and are used to make a wide range of products. A selection of drinks made from the fruit is available on board.

## Charter

For special occasions, birthday celebrations, anniversaries or weddings, you can charter your own carriage or your own train. The ride within the Mariazellerbahn will be a stunning experience. We are looking forward to hearing from you and to offering you an unforgettable journey. Catering can be offered on request.
